

A vertical stack of Eastern White Pine logs is visible on the left side of the slide. The logs are cut into various lengths and diameters, with some showing the characteristic "knots" of the wood. The background is a clear blue sky.

JANUARY 2025

EASTERN WHITE PINE LOG GRADE SPECIFICATIONS

OVERVIEW

- Target 16' logs for 60% or more of the load
- Limit 10' logs to no more than 10 per load
- Minimize the number of 10' and 14' logs on loads
- The mills **do not** accept 8' logs.
- Please keep pallet grade logs to a minimum
- Trim excessive butt flares
- Trim limbs flush
- Logs without enough trim will be scaled back to the next nominal length
- Please direct any questions or concerns to your Log Buyer
- Detailed scale slips will be sent by email

LOG SCALE: INTERNATIONAL 1/4 INCH

Grade	Min. Diam.	Max. Diam.	Length	Specifications	Delivered Price
Select	14"	40" butt end	10' – 16'	1/2" pin knots allowed
