

Denise Curran

KITCHEN DESIGNER

Denise has been working with homeowners, contractors, and vendors for over twenty years, bringing functionality and beauty into their spaces. Spending most of her career in the interior design world, she has extensive experience with floor planning and color scheming, including furnishings, flooring, wall color, lighting, and artwork. Searching for change, she moved into kitchen and bath design in 2020. With her considerable background in project management, Denise enjoys the challenge of focusing on the details of each individual job that make it unique to its customer. Her ability to guide clients from design, budget expectations, and material selections to the final product and installation is a gift.

“Bringing a customer’s ideas into reality, no matter how big or small, is my greatest joy!”
