

# Shayna Howell

KITCHEN DESIGNER

Shayna's story began late in 2021 with a cross-country 2,900 mile move to Maine. A burning desire to live and experience New England, combined with the realization she could make it happen, led Shayna to Maine. A graduate of the University of Idaho, Shayna received her Bachelor's degree in Interior Design with a minor in Architecture. Previously, Shayna designed kitchens and bathrooms while working at a lumberyard in Pullman, Washington. In her spare time, she enjoys photography, thrifting, playing volleyball, and spending time with her two dogs.

*"Building and remodeling can be an incredibly stressful time in a client's life. I really enjoy being the person who brings the fun back into it, guiding my customers through the decision-making process and helping bring a space to life!"*
