

Prefinished Interior Eastern White Pine

Our in-house finishing process offers a superior stained product for interior use. Save time and money with Hancock ProFinish.

- Environmentally sustainable, locally grown eastern white pine
- Locally milled and finished.
- Extensive QA testing to ensure the highest performance.
- Quality and grade are double checked to ensure the whole pack is usable.
- Controlled production environment for a consistent finish on every board.
- Random length packages 8', 10', 12', 14' and 16' with five pieces per pack
- Shrinkwrap keeps boards clean and provides protection from damage until installation.
- Eco-friendly coating formulations.
- Sold and credited in full, five-pack bundles only
- Interior use only
- Great for remodeling projects and accent walls.
- Superior results compared to onsite hand-finishing.
- Surfaces are sanded prior to finishing for the best appearance.
- Coated on all sides to provide more dimensional stability.
- Durable UV Clear Top Coat—helps protect from color shifting and provides scratch resistance.
- One step installation with no need to finish and paint drywall.
- No need for a painter/finisher.
- No odor on the jobsite vs onsite finishing.
- Available to order in all profiles and grades.
