

Jordan Lachcik

KITCHEN DESIGNER

With over 12 years of experience in the building materials industry, Jordan brings a well-rounded perspective shaped by roles in distribution, sales, and design. That, along with her associate degree in architecture and engineering design from SMCC, allow Jordan to combine technical knowledge with her passion for thoughtful, detail-oriented design.

Since 2023, she has focused on creating functional, beautiful kitchen spaces that reflect each client's needs, style, and lifestyle. Outside of work, Jordan enjoys spending time with her family and traveling together. Whether she's exploring new places or creating memorable moments with family, Jordan values experiences that inspire creativity and strengthen the connections that matter most.

"Clear communication and collaboration are the foundation of every successful project. My goal is to create spaces that are both visually inspiring and practical for everyday living."
